Forecast for Thursday 02 Sep 2021

Weather: A largely dry but overcast start but cloud tending to break during the morning to give some long sunny spells through the afternoon. Cloud will thicken once again into the evening but remaining dry.

Chance of cloud free mountain/hill tops above 600m: 20% to start but improving through the morning to become 90% into the afternoon as cloud breaks. Becoming 30% into the evening as cloud spreads from the east.

Visibility: Extensive cloud above 600m through the morning, with some lower cloud obscuring some routes above 400m, particularly on eastern facing slopes where the poorest visibilities are likely. Visibilities becoming good into the afternoon as cloud breaks, before turning hazier into the evening.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Some uncertainty with regard the speed of cloud breaking up through the morning, but northern and western areas are likely to see the quickest improvements. The sun remains strong even as we come towards the end of summer with Moderate UV likely in any persistent sunshine into the afternoon

Recent rainfall: measured at Malham: altitude 375m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
02:00 on Thu 02 Sep 2021	0.2mm	0.4mm	0.4mm

Forecast for Friday 03 Sep 2021

Weather: Similar conditions to Thursday, with early cloud on summits. Then staying dry with cloud clearing to give a brighter afternoon with a chance of sunny spells.

Maximum wind: Easterly 20-25mph

Chance of cloud free mountain/hill tops above 600m: 20% to start but improving through the morning to 90%.

Visibility: Extensive cloud above 600m through the morning, with some cloud possibly obscuring routes above 400me particularly on eastern facing slopes. Visibilities becoming good into the afternoon as cloud increasingly breaks

Temperature: **Valleys:** Plus 10 Celsius, rising to Plus 17 Celsius.
At 600m: Plus 8 Celsius, rising to Plus 12 Celsius.
Freezing level: Above summits.
